

The Great Fire of London

Key Events and Facts

When and where did the fire start?	The fire started on Sunday 2nd September 1666 in Thomas Farriner's bakery on Pudding Lane.
Why did the fire start?	The fires used for baking were not put out properly.
Why did the fire spread so quickly?	In 1666, the buildings in London were made of wood and straw and they were very close together, making it easy for the flames to spread. It had also been a dry summer, so the buildings were dry. Strong winds were blowing, which helped the flames to spread.
How did people try to put the fire out?	People used leather buckets and water squirts to try to put the fire out, but these did not work. Later in the week, King Charles II ordered buildings to be pulled down to stop the flames from spreading.
How and when was the fire put out?	By Thursday 6th September, the wind had died down. This meant that people were able to put out the flames.
